COMPANY DATA

Directional Command LLC, a Service Disabled Veteran Owned Small Business, provide the leadership and coordination of major government, utility and telecommunications projects. We provide services for investor-owned utilities, electric cooperatives, municipalities, military installations, government agencies and corporations of virtually every size, including some of the largest, most sophisticated utility-power networks in the nation. Our team brings decades of experience to every project, and we work hard to deliver the smartest, most technologically advanced solutions available. Our goal is to earn a spot on your Team by getting the job done right every time.

PAST PERFORMANCE

Directional Command has been awarded and is successfully providing GPS Telematics service throughout the USA and Puerto Rico for several regions for the Department of Veterans Affairs - Gulf Coast, Kentucky, Cleveland, Charleston and Tampa. We have also provided High Voltage Maintenance for Department of Veteran Affairs.
