

## CAPABILITIES STATEMENT

Directional Command provides a full suite of customizable GPS Telematics solutions such as:

Fleet Management	Marine Tracking	Telematics
Asset tracking	Equipment Monitoring	Trailer Tracking
Hours of Service	Connected Cameras	Personal Tracking
Safety Monitoring	Generator Monitor	Weather Tracking

## DIFFERENTIATORS

We have access to over 200 hardware devices that we integrate with Directional Command's Software as a Service Platform. The Platform is configurable in order provide actionable and meaningful information for your business operation.

## COMPANY DATA

Directional Command LLC, a Service Disabled Veteran Owned Small Business, provide the leadership and coordination of major government, utility and telecommunications projects. We provide services for investor-owned utilities, electric cooperatives, municipalities, military installations, government agencies and corporations of virtually every size, including some of the largest, most sophisticated utility-power networks in the nation. Our team brings decades of experience to every project, and we work hard to deliver the smartest, most technologically advanced solutions available. Our goal is to earn a spot on your Team by getting the job done right every time.

## PAST PERFORMANCE

Directional Command has been awarded and is successfully providing GPS Telematics service for over 300 vehicles for several regions for the Department of Veterans Affairs - Gulf Coast, Kentucky, Cleveland and Charleston, SC.
